Directory_name	WMS Data
Title	catasto
Description	<p>Dataset specifically provided via WMS service to consult the Land Cadastre related to Tuscany Region. The data are further subdivided into component provinces based on cadastral information. For each data is available a specific field (DT_ELAB) with processing date with the format 'yyyy/mm/dd'. Among the processes carried out there is the reprojection of the original data from the various local reference systems in a single reference system. Furthermore, from the cadastral data had been removed geometries that for some reason were inconsistent with their position or were geometrically incorrect</p>
