Venturina Terme, 18 Luglio 2016

Prot. n° 01/2016/0004448/P/001

Agreement for the exchange of best practices, data and experiences regarding water management and climate change

Mr Alessandro Fabbrizzi as Dirigente of the entity Consorzio di Bonifica 5 Toscana Costa, Project Manager of project LIFE14 ENV/IT/001290, titled "REWAT "Sustainable water management in the lower Cornia valley"

DECLARES

- That he is familiar with KRASCAVE Project "Implementation of sustainable groundwater use in the underground karstsystem of the Krásnohorská jaskyňa Cave", approved by the European Union as part of the LIFE+ programme, within the Politics and Environmental governance (LIFE11 ENV/SK/1023). Its goal is to "reduce the risk of contamination of drinking water source in the ecosystem of the Krásnohorská jaskyňa Cave, through the implementation of innovative activities";
- His interest in developing other Project related to management of water through its life cycle;
- His willingness to collaborate with Life Project KRASCAVE, without implying an economic agreement, by mutually disseminating the results of both projects, exchanging data and experiences, working in a network and, in general, by promoting a Community of projects committed to the environment.

In witness whereof, he hereby signs this agreement in Venturina Terme as of the 18th July 2016

MR.....
[Dirigente of Consorzio di Bonifica 5
Toscana Costa, Project Manager of project
LIFE14 ENV/IT/001290, titled "REWAT]
